“ SAE 2016 COMVEC was an eye opening experience. As a first time attendee, I was extremely glad to find an event/forum where I feel like I am part of a greater community than just my place of employment. The experience from the technical talks all the way to networking opportunities and connecting with people I may not have otherwise had the chance to was invaluable. I look forward to being involved with SAE for years to come. ”

NEETA ROBU

Integration Engineer
Caterpillar Inc.

COMVEC 18 is the convening point for the engineering community that develops vehicles and equipment spanning the on-highway, off-highway, agricultural, construction, industrial, ground defense, and mining sectors.

COMVEC returns to Chicago, Illinois September 11-13, 2018. Discover the latest and critical need-to-know information impacting global commercial vehicles through a focused event program. Attendees will participate in interactive panel discussions, experience the dynamic technical displays, and connect with industry leaders.

Designed to promote professional interaction and collaboration with the industry's most influential audience, **COMVEC 18 facilitates the business opportunities you need.**

Don't miss this opportunity to place your brand, products and services in front of leading technical authorities in the commercial vehicle industry.
